THREE CARS OF COAL PER WEEK FOR DIXON GAS

I. N. U. Files Application for Cars With L. & N. R. R.

If Sterling, Rock Falls, Dixon, DeKalb and Mendota gas plants of the Illinois Northern Utilities company do not receive an adequate supply of Kentucky coal with which to operate all of these cities on a 24-hour schedule it will not be because of any lack of effort on the part of Traffic Manager W. E. Long of the Manufacturers' Association, says The Sterling Gazette. Mr. Long is bending every effort, leaving no stone unturned to get gas coal for the Illinois Northern Utilities companies to relieve the situation, which has existed for the last two months and caused no end of damage inconvenience and discomfort.

Traffic Manager Long, just as soon as he learned of the Interstate Commerce Commission's service order, making provision for a supply of cars at the mines to load coal for various public utilities companies, got busy to see if he could hasten a relief to the gas situation in Sterling, Rock Falls and other northern Illinois cities. Mr. Long immediately wrote to Mr. E. D. Alexander, vice president of the Illinois Northern Utilities company at Dixon, the officer of the corporation in charge of this department, informing him that if he would take up correspondence with the superintendent of the Louisville and Nashville Railroad, setting forth the urgent needs of the I. N. U. plants at Sterling, Dixon, DeKalb and Mendota for fuel for gas making purposes that it might result in a marked improvement in supply of equipment for loading, which would mean that enough coal would be obtained to operate the plants continuously.

Alexander Acquiesces.

It is understood that Mr. Alexander accepted the suggestion of Mr. Long and has written to the superintendent of transportation of the L. & N. railroad. Mr. Long, too, wrote to the railway transportation superintendent, enclosing a copy of his letter to Mr. Alexander, the local traffic manager, gave the railway transportation the details of the gas plant situation, stating that the Illinois Northern Utilities company had been out of coal at its gas stations in Sterling, Dixon, DeKalb and Mendota for a considerable portion of the time during the last four weeks.

It has been necessary to turn off the gas on account of the coal supply. (Continued on Page 3.)

TO SELL HOMES IN CHICAGO TO CITY'S WORKERS

Housing Assn. Plans to Relieve Shortage of Dwellings

By Associated Press Leased Wire

Chicago, July 21.—Leaders of 150 Chicago industries today expressed approval of the plan of the Chicago Housing Association to sell homes at cost.

Employees will be given an opportunity to invest in six per cent first mortgage real estate bonds secured by the 175 houses already erected by the association on a 40-acre plot.

Investors will become owners of \$8,000 homes, which the association sells for from \$4,500 to \$5,000 on terms of ten per cent down and monthly payments of from \$35 to \$40.

Of the \$1,000,000 cost of the 175 houses already built \$600,000 has been subscribed by Benjamin J. Rosenthal, said to have fathered the idea. J. Ogden Armour, Albert D. Lasker, Edward Morris, Jules Rosenwald, Frederick W. Upham, Thomas E. Wilson and William Wright, Jr.

"Chicago is short at least 50,000 homes," Mr. Rosenthal said. "Not less than 500,000 people in Chicago are viciously housed. People sleep in closets, basements and halls."

MAY NOMINATE BRYAN DESPITE EXPRESSED WISH

Some Prohibitionists Determined to Put Up a Ticket

By Associated Press Leased Wire

Lincoln, Neb., July 21.—The prohibition party opened its thirteenth annual convention here today prepared to give over much of the three days of day and night sessions to jubilation over the downfall of John Barleycorn. To this end several celebrations have been arranged and a dozen or more orators have prepared speeches.

Indications were that such matters as nominee and platform planks will give way for at least two days to the jubilee.

The Bryan boom today had become the foremost question before the delegates.

May Nominee Bryan

Mr. Bryan's friends here who claim to be speaking for him, firmly reiterate previous statements that he will not accept the nomination, will not run on any ticket and feels that the party should not name any candidates, confining its activities instead to local campaigns.

Groups of delegates yesterday planned to try to have Bryan nominated unanimously regardless of his own views. A series of night conferences by other delegates resulted and today there is a definite movement to prevent Mr. Bryan's nomination on the ground that he should not be placed in an embarrassing position.

Nominations are not scheduled until Friday.

MANY CORPORATIONS IN STATE FACE LOSS OF CHARTERS JULY 31

Have But Ten Days to Pay Franchise Tax to the State

By Associated Press Leased Wire

Springfield, Ill., July 21.—Several thousand corporations in Illinois will be subject to forfeiture of property and sheriff's sales unless their franchise tax, assessed under the General Corporation act is paid before July 31.

The announcement was made by Secretary of State L. L. Emmerson of the 30,000 corporations which filed annual reports with him in February, approximately 9,000 have not yet paid their franchise tax. It is due from all domestic and foreign corporations other than banks, insurance companies, building and loan associations and corporations not for profit.

Failure to pay will be followed by a sheriff's sale of the defaulting corporations' property to satisfy the amount of the unpaid tax, plus a 5% penalty. Indications are, Secretary of State Emmerson says, that several thousand delinquent companies will have to be thus treated.

That this new franchise tax will prove a source of considerable revenue to the state is shown by the fact that \$1,035,158.61 has already been collected. These figures indicate that the year's franchise tax will aggregate \$2,500,000.

Although the new corporation act decreased incorporation fees sixty to eighty per cent, it is said to be clear that the reduction has insured the state. For the year ending June 30, 1920, there was collected from foreign and domestic corporations \$1,524,307.78, while the amount the previous year from the same source was only \$708,501.53.

In the year ending June 30, 1920, there were 5,272 domestic and 528 foreign corporations licensed to business in Illinois. The corporation department according to Secretary of State Emmerson has become one of the most important in the state. It is under direction of Alvin C. Margrave.

NEW PARTY HEAD ASKS RELEASE OF DEBS FROM JAIL

Wires Cox and Harding Asking Them to Help Him

By Associated Press Leased Wire

Denver, Colo., July 21.—Parley P. Christensen, Farmer-Labor party candidate for President today telegraphed to Senator Harding, Republican nominee, and Governor Cox, Democratic candidate suggesting that all join in a demand upon President Wilson to immediately release Eugene V. Debs from prison.

The text of the message follows: "I have been selected by the Farmer-Labor party as its candidate for the President of the United States. It is my intention to inaugurate as quickly as possible a nation wide campaign in behalf of the tenets of political and industrial democracy embraced in the platform of that party, but I dislike utterly to start on such a campaign while one of my opponents is in prison and especially his in prison for no crime other than an honest public expression of his political views. I refer to Eugene V. Debs, nominee of the Socialist party. "The war has been over for nearly two years, and whatever justification there might have been on the part of the government for denying Debs his freedom during the war has now been dissipated by twenty months of peace. Debs May Be Wrong.

"Mr. Debs may be utterly wrong in his ideas of how best to conduct the affairs of society and so may I be and so may you but my conception of liberty includes the right to think wrong. I say to Mr. Debs and to others with whom I disagree, including the candidates of the Republican and Democratic party 'I loathe your ideas like death, but I will defend with my life your right to express them.'

"Does it not appeal to you as a matter of simple justice that the presidential candidates of the Democratic, Republican and Farmer-Labor parties should join in a demand upon the president of the United States to immediately release the Socialist candidate from Atlanta prison? As for me it shall not be said that I have been a party to the persecution of any man for the opinions he holds, and I should so regard myself if I failed to publicly announce my condemnation of the imprisonment of Debs since I have entered a race in which he is a competitor. Your sense of sportsmanship must lead you, since your nomination, to consider the position of Debs. I beseech an answer from you to this proposal."

M. L. Dysart has gone to Detroit on a business trip for a few days.

UNION HEADS MEET TODAY TALK AWARD

Four Courses of Action Open for Railroad Union Men

By Associated Press Leased Wire

Chicago, July 21.—Danger of an immediate strike of railway workers of the country apparently had dissipated when the 2,000 representatives of the sixteen railway crafts resumed their conference here this morning to consider the \$600,000,000 wage increase, granted by the railway labor board in its decision handed down yesterday.

When the grand council met today four courses of action were under consideration:

Accepting the award under protest.

Acceptance of the award with a proviso that preparations for new wage demands be immediately started.

Tentative rejection of the award and a recommitment of the strike issue to a referendum of the rank and file.

Flat rejection of the award and an exercise of the extra ordinary plenary powers resting in the grand council toward a strike.

CITY HAS NO MONEY TO WASH STREETS IN BUSINESS PART CITY

A delegation of business men having places of business on Galena avenue from First street north to Boyd street on the north side of the river, appeared before the city council at its regular session last evening with a petition requesting the street department to wash Galena avenue once weekly, furnishing hose, water and men to do the work.

The city officials listened attentively to the arguments put forward by those present and then presented their side of the case. There was no concealing the fact that the city was financially unable to assume the task of washing the avenue once weekly, furnishing hose, water and men to do the work. It was suggested that the city furnish one man and the hose to superintend the work, the business men to furnish such other help as would be necessary to wash the street. This proposition was presented by the city officials and is being considered by those who are heading the movement for cleaner streets through the heart of the city.

Bids for the construction of a sanitary vitrified tile pipe sewer on North Dixon avenue and on Seventh street were opened and read and placed on file until the regular meeting of the council next Tuesday evening, when contracts for this work will be let.

Arrest Park Ruffians

A complaint was received from the park board relative to the destruction of property at the John Dixon park where the new playground equipment has been placed and is now in use. The children who use the equipment during the day are not blamed for the destruction of the park property but older boys and young men who congregate in the evening. Mayor Mark Smith appointed William J. Barry, Jr. and John Feltes special police officers to have supervision over park property and arrest all persons who are found disobeying the park rules and destroying the property.

A resolution was passed by the council rescinding and repealing the action of the council on June 4, 1918 when the mayor was authorized and empowered to sell city property designated as lot 5 in block 18 in Dement's addition. The regular semi-monthly bills amounting to \$1423.35 were read and allowed.

E. C. Williams of Palmyra was a caller in Dixon Tuesday.

REP. EXECUTIVE COMMITTEE MET; CAMPAIGN PLANS

Go to Marion Tomorrow to Attend Notification Fete

By Associated Press Leased Wire

Columbus, July 21.—Members of the executive committee of the Republican national committee arrived here today for a meeting to discuss campaign plans before going to Marion tomorrow for the ceremonies at which Senator Warren G. Harding will be notified of his nomination for the presidency.

Among the first to arrive were Will Hays, national chairman and Senator Lodge of Massachusetts, who was chairman of the Republican convention.

The notification arrangement committee head by T. Coleman DuPont, of Delaware, planned to meet following the session of the executive committee.

Among those expected at the executive committee meeting were Fred W. Upham, of Illinois; John T. Adams, of Iowa; Mrs. Corinne Roosevelt Robinson, of New York, and A. T. Hert, of Kentucky.

Many Republicans from all parts of the United States were arriving here today, ready to make the pilgrimage to the notification ceremonies at Marion tomorrow. Special trains and traction cars will be run to Senator Harding's home town and hundreds will go by automobile.

Cyrus Healey Hurt In Fall Down Stairs

Cyrus Healey, tinsmith, suffered a dislocation of the right shoulder, a deep scalp wound and several minor cuts and bruises, when he fell down several steps in his workshop at 1022 Peoria avenue early yesterday morning. He was working in the shop and started down a flight of stairs from the second floor to the ground floor, and when about half way down the stairs he slipped and fell, striking on his shoulder and dislocating that member. He was taken to the house where a physician dressed his wounds. This morning he was able to be about the house but will be unable to attend to his regular duties for several days.

SHAMROCK AGAIN LED OVER MARK

Got Away 19 Seconds Ahead of Resolute This Noon

By Associated Press Leased Wire

Sandy Hook, N. J., July 21.—With two victories to her credit, Shamrock IV led across the starting line in today's race for the America's Cup, defended by Resolute.

The Lipton sloop needs but one more victory to lift the cup.

After sounding the starting signal at 1 p. m., Shamrock crossed at 1:00:22 and Resolute at 1:00:41, official time and breezed away on the first fifteen mile leg of their 30 mile windward and leeward course.

At 1:15 Shamrock had a lead of an eighth of a mile and appeared to be gaining rapidly in the four knot breeze. Resolute, although to windward, appeared losing. At 1:30 Shamrock had increased her lead to three-eighths of a mile.

At 1:40 Shamrock was well ahead of Resolute and it seemed as if she could cross the defenders bow if she went about to a margin of several hundred yards.

By Associated Press Leased Wire

Sandy Hook, N. J., July 21.—Postponement at 15 minute intervals was ordered at 1:30 today by the committee directing the America's cup races of 1920.

With scarcely a breath of air on New York Bay, the cup sloops idled around Ambrose channel light-ship, the starting point, awaiting a blow. A southwestern wind blowing in the lower bay at 10:30 encouraged belief that a start would be made on time.

Shamrock Needs One

Since one more victory for Shamrock would mean that Sir Thomas Lipton would lift the cup it was felt that the regatta committee would not care to send the sloops away until true race conditions obtained, so that the race could be decided solely on the merits of the yachts or the sailing abilities of their skippers.

At 11:45 a. m. the breeze was still light and there was indications of a long wait if not a postponement for the day.

Committee Orders Race

At 12:32 the regatta committee hoisted signals for the course, a beat south by west to a point about eight miles off Asbury Park, with a run back to the Ambrose channel light ship. Each leg is 15 miles. Two minutes before a new breeze from the south, southeast gave some indications of holding.

The preparatory signal was blown at 12:45, when both sloops were jockeying for position.

Sandy Hook, N. Today's Market Report

(By Associated Press Leased Wire.)

Grain Market Were Bearish at Opening of Exchange Today

By Associated Press Leased Wire
Chicago, July 21.—Fresh rallies in the price of wheat took place today chiefly owing to a big increase of the estimated yield of wheat in Kansas. The Kansas gain was regarded as more than offsetting losses by black rust in the northwest. Besides Canada reported rains over the drought district. Opening prices were varied from 3 to 6 1/2c lower, with Dec. 2.32 to 2.53 and March 2.55, were followed by a set back to 2.51 for December and then by a substantial rally all around.

Corn Bearish
Indications that there would be no rail strike had a bearish effect on corn. After opening 1/2c to 1 1/2c down, including September at 1.48 1/2, 1.49 1/2, and December 1.36 1/2 to 1.37, the market underwent a further 3 1/2c before beginning to recover.

Oats Weak Also
Oats were weak in sympathy with other grains. The market opened unchanged to 1/2c lower, with September 76 1/2, to 76 1/2c, reacted a little and descended lower than at first. Provisions reflected the decline of cereals.

Hog Island Ship Yard After New Launching Record

By Associated Press Leased Wire
Philadelphia, July 21.—As a climax to its many notable achievements since it was created as a war emergency Hog Island today planned to establish a new world ship launching record.

Seven 7,825 ton steel cargo carriers, the last on the ways at the big plant will be sent overboard, according to the arrangements, within 50 minutes or less.

With the completion of these ships and twenty-two others now in the wet basin for outfitting, the American International Corporations contract of 122 vessels will have been finished and the yard will be turned over to the government.

U. S. Trap Shooters Confident of First Place in Olympiad

By Associated Press Leased Wire
Antwerp, July 20.—American trap shooters have arrived at Antwerp fresh from victory in the international match at Hendon Eng., and are confident of winning both team and individual events in the Olympic clay pigeon on shooting. The American running stag and pistol shooting teams have also arrived, and with the rifle team which is now training at the Colby army range, complete the American representation to take part in the shooting events.

The trapshooters, under Jay Clark, finished an easy first at the Hendon shoot, breaking 113 out of a possible 120 targets in the team match and winning five first places in the individual events. Frank Troeh made a perfect hundred score.

Iowa Spring Wheat Affected by Blight

By Associated Press Leased Wire
Des Moines, Ia., July 21.—Spring wheat in portions of Iowa is becoming affected by black stem, red rust and blight and the indications are for a fair to poor yield in the affected areas, with the prospects not very good any place in the state, according to the weekly crop condition bulletin issued today by the United States weather bureau. Good yield and excellent quality is reported from the winter wheat harvest now well advanced.

He had been a patient at the colony for about two years. The deceased was born in Rock Island and was 35 years of age. The body was taken to the Staples, Moyer & Schumm mortuary where it is being held pending the arrival of a brother, Harry Leonard of Freeport who is expected to come today and take charge of the body.

Hanneken Appeared for State in Amboy

Attorney Albert H. Hanneken went to Amboy yesterday afternoon where he appeared for the state in a case in Justice Virgil's court. Two Amboy residents had started litigation in the court, a man named Flynn charging a neighbor with threatening him with a hammer. In the taking of testimony it developed that Flynn was in the midst of a quarrel with members of his family when the neighbor was called in by Flynn's son and some heated words were exchanged. After hearing the evidence in the case, Judge Virgil dismissed the case. Attorney William Leech appeared for the defendant.

Police Chief Fined for Contempt, Fails to Open His Records

By Associated Press Leased Wire
Cleveland, O., July 21.—Police Chief Frank W. Smith was found guilty of contempt of court and fined \$100 by Judge Levine in common plea court this morning. Judge Levine held the chief guilty of failing to observe the court's injunction ordering him to open all police records to reporters for the Cleveland News.

LABOR SHORTAGE DELAYING WORK ON NEW HOUSES

Five of Cement Co.'s Dwellings are Nearing Completion

Very good progress is being made on the colony of new dwellings under construction near the Sandusky cement plant. Nine of the big houses are now well under way, five of which are nearing completion. The buildings are two stories high with a spacious basement.

Scarcity of labor is responsible for the fact that the buildings are not completed and occupied by employees of the cement plant at this time. Considerable difficulty has been experienced in securing carpenters and cement block layers in sufficient numbers to hurry the work along. It is expected that five of the buildings will be ready for occupancy this fall. The sewer system and water mains have been laid and laterals connect each of the houses.

A big garage has been built along the river bank, just opposite from the cement plant offices to accommodate automobiles belonging to employees. The building, which is of fire proof construction, corrugated iron being used, is completed and carpenters are now hanging the heavy swinging doors.

Former Dixon Lady Died Suddenly at Her Home in St. Louis

The Telegraph this morning received a telegram from D. E. Johnson of St. Louis announcing the death of his mother, Mrs. E. C. Johnson, a former resident of Dixon, at her home in the Missouri city yesterday. Death was very sudden, resulting from heart failure. The deceased was 74 years of age. Mr. Johnson's telegram announced the body would be brought to Dixon for burial in Oakwood cemetery, and Amboy papers are asked to copy notice of the death.

Sister Mary's Kitchen

When making your store of jellies and jams don't forget the friend who has no opportunity to preserve, and prepare a few jars specially for her. The nicest way to put up jelly to be used for a gift is to secure some small paper containers. These may be found in shops devoted to house furnishings and china and some of the larger stationers. The ones bought at these places are attractively decorated and labeled.

But from our never failing five and ten-cent stores the stiff paper picnic cups may be procured for a mere nothing. These make neat, plain, inexpensive containers.

Menu For Tomorrow

Breakfast—Chilled melon, broiled bacon, toast, coffee.

Luncheon—Apple fritters, sirup, sliced tomatoes, rolls, etc.

Dinner—Mashed chops, new potatoes, beet greens, sponge squares with apricots, coffee.

My Own Recipes

Tomatoes, very cold, sliced with a sharp knife have an attraction for most people that is not to be explained. But tomatoes should always be pared before serving. To me the skin of a tomato is most objectionable. It is very tough and indigestible.

Mashed Chops

4 lamb chops
1 cup soft bread crumbs
1-2 cup milk
2 tablespoons finely chopped ham.
1 egg

1 tablespoon finely chopped parsley.
1-2 teaspoon salt (the ham being salty.)

1-4 teaspoon white pepper
Dried bread crumbs and 1 egg.
Have chops "Frenched," leaving the bone at least two inches long.

Broil and spread with the mixture made this way. Put soft bread crumbs and milk in a sauce pan and cook until smooth, stirring constantly. Remove from fire and stir in ham, egg, parsley, salt and pepper. Let cool before spreading on chops. Beat egg slightly and add 1 tablespoon of hot water. Baste each chop very carefully with egg, roll in dried bread crumbs and fry in deep fat. Serve with tomato sauce.

Sponge Squares With Apricots

4 apricots
1-2 cup sugar
1-2 cup water
4 blanched almonds
1-2 cup whipping cream
1 tablespoon powdered sugar
4 squares stale sponge cake

Cut the cake in slices about an inch thick. Make squares. Make a sirup of the sugar and water. Pare and cut the fruit in halves. Cook the apricots in the sirup until tender. While hot put two halves of the fruit on each square of cake, put an almond in the cavity of each and pour the sirup over the whole. Whip cream and sweeten. Add a spoonful of the whipped cream just before serving.

If silence is golden and oratory is silver-tongued, gossip is probably brass.

WATERMELONS

Just received a car, fine as you ever get. Price is very reasonable. Eat watermelons, they carry their own sugar. Bower Fruit Company. 17013.

RECORDS WILL ON WAX RECORD OF PHONOGRAPH

Iowa Man Thinks He Has Fraud Proof Will

Des Moines, Ia., July 21.—What he says he believed to be a "fraud proof" will has been made and filed in the office of the clerk of Polk County, Iowa by Theodore Mantz, a Des Moines lawyer. Mr. Mantz dictated his will into a talking machine, and had it recorded in wax.

At the end of the dictation G. H. Miller, a lawyer, and H. W. Brandt, a court reporter testified into the machine they were witnesses to the "making" of the will, and spelled their names out in full as the witnesses. The record then was put on a machine and reproduced the voices. Being pronounced correct by Mr. Mantz he took it to the clerk's office, had the box containing it sealed in wax and filed.

Mr. Mantz has instructed Mrs. Mantz to take the case to the highest court of the country if the validity of the will should be questioned.

The will on a record is believed by its maker to be the first of its kind in the country. Lawyers say a possible objection to wills on talking machine records is an Iowa statute which says conveyances of property worth more than \$200 must be in writing. Mantz says he will go before the next session of the Iowa legislature and endeavor to get a bill through which will legalize spoken wills when recorded as his is.

Mantz says he believes the future will see greater uses of talking machines and records, and in his opinion it would be much more difficult to "tamper with" a spoken will than a written one.

DIXON GAS PLANT MAY GET THREE CARS COAL WEEKLY FROM L. & N.

(Continued from Page 1)

ply, and service complaint has been made against the L. N. U. company to the State Public Utilities Commission," Mr. Long wrote. "I trust, therefore, that you will appreciate the importance of arranging adequate car supply for this loading, advising me promptly what may be expected in the way of equipment. We will arrange to have the agent of the delivering carriers at points of destination enumerated write you certifying that the Utilities company has no coal on hand at its station, and that the coal for which we are asking you to supply equipment is needed for current use—this in accordance with the Interstate Commerce Commission order."

Letter to Washington.

Augmenting his letters to the Illinois Northern Utilities company's and L. & N. Railroad company's officials, Mr. Long also wrote to the Interstate Commerce Commission at Washington, D. C., and to the State Public Utilities commission at Chicago. Mr. Long addressed his communication to the Interstate Commerce Commission to George B. McGinty, secretary of the board, advising of the steps that had been taken in an effort to procure coal for the gas plants of northern Illinois and asked them to interest themselves in relieving the situation by writing to the superintendent of transportation of the L. & N. railway at Louisville, Ky., and urge him to arrange adequate car supply for loading coal for shipment to Sterling, Dixon, DeKalb and Mendota.

Also to State Board.

Addressing his letter to the state public utilities commission to the attention of James H. Wilkerson, chairman, Mr. Long told him of the letters he had written to other parties who had been asked to co-operate in the solution of the gas coal problem.

"Having in mind the case of the citizens of Sterling against the Illinois Northern Utilities company, it is our thought that if the commission would write Mr. Haylow of the transporta-

tion department of the L. & N. railway regarding the car supply for transportation of fuel, that it might materially assist the Illinois Northern Utilities company in securing adequate supply of equipment at the mines," was in substance what Mr. Long wrote to the State Public Utilities Commission.

Asks Agents' Co-operation.

Leaving no detail of a systematic plan to solve the gas coal problem undone, Mr. Long has written the railway freight agents of the Northwestern at Sterling, Dixon, DeKalb and the C. B. & Q. agent at Mendota relative to supply of equipment at Evans, Ky., to load coal for these cities. Copies of Mr. Long's letter to Mr. Alexander and to Mr. Haylow of the L. & N. railroad were enclosed in the letters to the agents. Further Mr. Long's letter to them says:

"You will observe from the letter addressed to Mr. Alexander that request to initial line for supply of equipment must be concurred in by the delivering railroad, showing that such coal is needed for current use and not for storage. We will appreciate, it therefore, if you will write Mr. Haylow of the L. & N. at once, outlining the situation so far as your

station is concerned, impressing upon him the urgent need of gas coal, with advice as to the number of cars required and indicate in your communication that the coal is needed for current use."

Ten Cars Requested.

Traffic Manager Long states that he has been advised that Mr. Alexander already has written the L. & N. railway making a request for ten cars of gas coal per week at the Evans, Ky., mine of the Black Mountain corporation to be applied as follows: three cars each per week for loading to Sterling, Dixon and DeKalb, and one car per week for loading to Mendota. If Mr. Long's plan of action is carried out along the line, it is believed that the gas service problem will soon be solved, not only for Sterling, but for the cities which he included in the argument for relief.

MONEY IN THE BANK

That there has been a decrease in
buying is true. But there has been
no dwindling in buying power. The
money has been going into the bank!
There were (July 1) 20,380,350 de-
positors in U. S. national banks, the
greatest number ever reported. That's
real prosperity for you! More than
one of every five Americans, men,
women, children, have savings piling
up in national banks. Add to this
imposing roll all those millions de-
positing their savings in state banks,
savings banks, building and loan as-
sociations, and you have something
to boast of.

This means that the thrift advice
has been accepted for all it is worth.
No other path leads away from the
road of ruin. Strengthening the
buying power, by increased produc-
tion and decreased spending, insures
a continuation of prosperity.

GOOD OLD SUMMER

"Watermelons, ten cents apiece!"
The old wagon was heaped high
with them as it creaked down the
street behind the tired horse.
"Watermelons, ten cents apiece!"
"Watermelons!" the peddler would
chant accenting in turn the third
and fourth syllables of the luscious
fruit.
And hearing his song, ma would
come rushing out to the curb in her
sunbonnet and ask the man if his wa-
termelons were ripe and sweet.
"If you don't take my word for it,
I'll plug one for you," he would
reply, and then he would cut out a
triangular piece and let ma and the
kids taste of it.
Those were the days! At ten cents
each ma could afford to buy two at a
time and there were two slices for
every one at the big feast in the even-
ing when watermelon was brought in
state to the supper table.
These tender memories must come
back to every man of 30 and over for
whom desire is balked in these high-
cost times when he discovers that the
tempting, rich red slice on the res-
taurant counter costs 25c or more.
He turns his longing eyes away
and orders prunes for desert instead.
Good old watermelon days that are
gone!

JAPAN'S DEMOCRACY

The Japanese people have resolved
not to be denied the rights of democ-
racy. Mass meetings insisting upon
manhood suffrage have become so
threatening in Tokio that the police
are trying to suppress them. Mobs
parade the streets, demanding the
government resign. A bomb was
thrown at the Parliament building.
It is a foolish policy which gives the
ballot only to those with property
qualifications. Property needs no
more protection than does humanity.
The military element in Japan, with
its medieval sense of loyalty to the
throne, and its contempt for undis-
ciplined outbursts of feeling, does not
favor democracy. But, neither did it
favor opening Japan to intercourse
with the western nations.
Efficiency, however, is Japan's
watch word.
Efficiency cannot prevail if the
Japanese people are in a constant
state of political turmoil. Japan's
leaders eventually will understand
this, for when efficiency is in ques-
tion, their minds work with a rigid
impersonality.
Meanwhile to all observers of de-
mocratic evolution, Japan will be the
most interesting nation in the world
for the next few years. Never before
has an oriental race risen in the demo-
cratic scale. How Japan makes her
rise will be fraught with vast conse-

INSURANCE

Whatever may be thought about
meddling in business of the average
governmental agency, in one field at
least governmental interference has
been successful.

That field is the war risk insurance
written by Uncle Sam on the lives of
the service men and women who went
to the front in the great war.

Uncle Sam has given an opportu-
nity to every service man and woman
to convert his or her war risk insur-
ance into permanent United States
government life insurance. The re-
sult is that the average amount of
this insurance now held by former
service men and women is \$3520.64.
Before the war, the average life in-
surance policy, written by private
companies, not including industrial
insurance, was given as approximate-
ly \$2320.

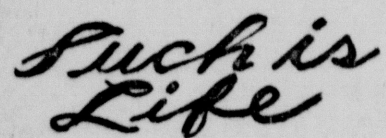

The Bureau has paid out in bene-
fits under the insurance act a total
of \$223,384,769.72.

Me rich? That's a good one, Mr.

do you think that? Is it because I

could not find or adapt another.
Man survived.

But man is subject to the law.
He must adapt himself.
It is quite conceivable that the hu-
man race has existed before, that it
has been wiped out, that in the
course of myriads of ages it has en-
dured again.

We have conquered climate dis-
ease, production.
As a race, man will not starve, nor
freeze, nor succumb to plague.
Yet the race may die.

It is not too much to say that we
are in the line of the possibility of race
extinction.
It may come in our generation.
At the close of the Great War,
chemists had manufactured gases so

powerful that their use would an-
nihilate armies.
The gases were destroyed. Their
formulae were kept.

The coyote may roam Broadway,
the rodent undermine Pall Mall, the

This is no chimera, or dope dream.
It is a stark possibility.

Man faces a new environment.
He has created Frankenstein forces
which may easily destroy him.
It is as though he had made a bomb
big enough to blow up the earth.
Another war may light the fuse.
Bingo!

What can prevent the catastrophe?
What but the abolition of war?
Has man the mental moral adapta-

If not—extinction.

ington, D. C.

FAULTY POSITIONS WHILE AT WORK.

Don't let your body become de-
formed through faulty posture.
Some occupations apparently can-
not be carried on without the worker
having to assume unhealthy posi-
tions. This is the case, for example,
with garment workers, shoemakers,
doing hand work, and draughtsmen.
Studying an occupation from the
hygienic standpoint, especially as re-
gards the position assumed by the
worker, it is found that, in at least
some instances, a faulty position can
be corrected by changing the accepted
conventional manner and condi-
tions of work.

Don't blindly follow old methods;
see if they cannot be changed for the
better.

Consider what has been done in
bricklaying—formerly, a bricklayer
stooped far over, both to reach the
bricks to lay, and for the mortar, a
ridiculous waste of energy. Nowa-
days, both bricks and mortar are
placed at a convenient height, and
stooping is no longer necessary.

Wherever deformity is due to an
faulty position assumed by an indi-
vidual, much can be accomplished by
education and training, by attention
to lighting, style of chair, height of
desk or table, eye strain, etc. Almost
equally important are setting-up ex-
ercises and breathing drills as prac-
ticed in most public schools.

Q.—I have tuberculous laryngitis,
and about a month ago my pharynx,
back of the tonsils, became ulcerated.
The ulceration has healed, but there
is still a dark red spot. Is this an
alarming condition? What should I do?

A.—You should rest your throat as
much as possible, and keep the throat
clean with the sprays you mention.
Be sure to have a thorough examina-
tion made by a physician, preferably
a throat specialist. It is probable
that the spot you mention is due to
a tuberculous inflammation.

Q.—What is meant by "poor circula-
tion"? What causes dark circles un-
der the eyes? What causes consti-
pation? Can it be cured and how?

A.—There are a number of causes
of poor circulation of the blood.
Sometimes the heart is at fault;
sometimes there is general weakness;
sometimes the arteries are too small.
Be sure to have a doctor examine you
to find out the cause of your trou-
ble.

Dark circles under the eyes are
sometimes the result of emaciation;
sometimes they are caused by lack of
sleep, and in women are often the re-
sult of periodic disturbances.

We have repeatedly discussed con-
stipation in the column. If you will
send me your name and address I
will be glad to send you an article
dealing with this trouble.

The only thing having less signif-
icance than a straw vote is a pref-
erence primary.

Being used to hot air, Washing-
tonians shouldn't mind the heat.

NEW TASTELESS
CASTOR OIL
IS EASY TO TAKE

Strength and Purity Re-
main the Same, but Un-
pleasant Taste is Re-
moved

A remarkable process perfected by
the chemists of Spencer Kellogg &
Sons, Inc., has resulted in a great
improvement in castor oil, the reliable
old family remedy. This tasteless
castor oil has the same strength and
purity as the old-fashioned kind. It's
100% pure castor oil. Nothing has
been removed but the nauseating
taste. Think what this means to the
mothers and their children. When the
doctor says, "Give them castor oil,"
there need no longer be any trouble.
Children need never know they are
taking castor oil. Given-ups will also
appreciate the difference between
Kellogg's Tasteless Castor Oil and the
old-fashioned nauseating kind. Sold
by all good druggists. If you want a
castor oil absolutely without nausea-
ting taste, insist on genuine laboratory
filled bottles, plainly labelled Kellogg's
Tasteless Castor Oil. Three sizes,
15c, 35c and 65c. (Advt.)

Confessions of a Bride

(Copyright 1920, by The Newspaper Enterprise Association)

The Russian Did Not Realize He Was
Revealing His Secret

"The temperamental young Russian
is like one possessed of an evil
spirit. I guess that was Rasputin,
all right!" So ran Archer's letter.
"Sandy's brain could hardly translate
nor his tongue keep pace with the
words which Miss Lorimer took from
the ouija pointer. But I am going
to try to give you the gist of the plot,
as made by Certes and the Russians
and, as confessed, subconsciously by
that Russian dandy. I knew, and
Miss Miller and Certes knew, that the
poor fellow was driven to it by fear
of the spirit of Rasputin.

"But Certes didn't seem concerned
because the Russian was giving the
plot away. Evidently Certes hadn't
the slightest idea that any of us
would suspect the truth. Evidently
the Russians themselves didn't under-
stand the psychology of the thing.
Certainly the young man didn't realize
that he was revealing a secret he had
sworn to guard with his life. Certes
could see that.

"So the queer game went on and
led up to the tragedy. Suddenly
the voice of Sandy McCall changed
and rang across the water. It made
us all jump suddenly as if an explo-
sive had let go below decks.

"The plot! The plot! You who have
the will to follow me and power over
the people, remember what I, Rasputin,
tell you now!"

"In translating what follows, San-
dy intoned his words like some pro-
phet of old. The gist of it is this:
"Certain factions of Russian aris-
tocrats, conniving with certain Ger-
man junkers, will be strong enough
to rule all Europe. But they must

work while the nations are still weak
from the effects of the last war. The
scheme is that capitalists and aris-
tocrats shall rule the proletariat or
working classes everywhere. Na-
tions and boundary lines are not im-
portant to the "old order" when it
comes into power again.

"The Germans will organize and
drill armies and supply the officers
for the same. Russia will supply
the man-power. In Russia alone
can be raised a vast army, for her
man-power is not depleted like that
of war-worn Germany and Austria
and France and Great Britain.

"Money must be provided to remake
kaiserdom and czarism. And this
must be supplied by a yellow race.
The gold will be given gladly by yel-
low men.

"When questioned further on this
point, Rasputin refused to tell which
particular yellow people was rich
enough and willing to finance another
war. I noticed that Certes sank
back in his deck chair and relaxed
when that question remained unan-
swered, while Don Manuel walked
nervously to the rail and threw a per-
fectly good unlighted cigar into the
deep.

"And whoever shall win the yellow
men to this cause," chanted the voice
of Sandy McCall, as he translated the
ouija "revelation"—"whoever shall ar-
range for getting the gold for Ger-
many and Russia, to him shall be giv-
ing a kingdom—after the war is won.

"To those who help build the great
est army that ever marched on earth,
shall come riches and power! To
those who refuse, shall come sudden
and awful death!"

"Suddenly the crazy sailor straight-
ened up, and as if pulled by a common

string, the rest of us rose to our feet,
and Sandy chanted:
"Once more the junkers shall rule
—by divine right!"
"After this 'revelation' poor Sandy
raised his great hands high above his
head and sent his voice up to his God:
"War! War! Oh, Most Merciful
Father, Save Us!"
"Then the poor chap rushed away
leaving us with that awful wail echo-
ing in our ears. Even after he had
disappeared, Miss Lorimer still gazed
at the stairs down which he had van-
ished."

TO BREAK GREEN COLTS AT AMBOY FAIR IN AUGUST

Novel Free Attraction Booked by Fair Officials

Miss Audra, Newell a farmer girl of Washburn, Ill., will exhibit her white Arabian horses each day at the Lee county fair in Amboy next month. These horses are trained by Miss Newell and she will come to the fair with them for a special free act each day. The exhibition will be given on the track in front of the grand stand.

William P. Newell of Washburn is coming to the fair this year with an attraction which promises to bring many farmers to the fair grounds. Mr. Newell will train colts if brought to the fair during its process, August 17 to 20th inclusive. He uses no rough or inhuman methods and accomplishes this work in a practical and very entertaining manner. He is not a "wild west" or "broncho busting show". Farmerse will be invited to bring green colts and see them hitched by one man, to a wagon and driven with out damage to the vehicle. The Lee County Farm Bureau office at Amboy is to be notified by those who desire to have colts trained in this manner.

Adah May Stevenson was born, July 24th, 1869, at Pearl City, Ill., and passed away at 5 o'clock Monday morning, July 12th, 1920, at her home on North Congress street in Polo, Ill.

Her death came as a shock to her relatives and friends. Mrs. Stevenson has been in failing health but has been able to be around. On Sunday morning she attended church services and in the afternoon she went auto riding, returning home about 6 o'clock and made the remark that she felt

better that day than she had felt in a long time. She retired at 8 o'clock and was shortly afterward taken seriously ill and kept growing worse until death ended her suffering. She was united in marriage to Leander Stevenson and to this union, one son, Jay, was born, who passed away at the age of 17 years. Mrs. Stevenson was the youngest daughter of Rev. Jacob and Ann Elizabeth Beldier and is survived by her husband, one sister, Mrs. Carrie Kuhns of Marseilles, Ill., and two brothers, Dr. William Beldier of Chicago and Dr. G. H. Beldier of Polo

and one step daughter, Mrs. Floyd Chambers of Beloit, Wis. Funeral services was held at 1:30 o'clock Wednesday afternoon at the Lutheran church. The burial did not take place until Thursday morning on account of a brother, who was away from home on a vacation and did not receive word in time for the funeral but would be there that evening. The burial was made in the Fairmount cemetery.

Mrs. Lucia Barber passed away between 9 and 10 o'clock Wednesday evening at the home of her daughter-

in-law, Mrs. Mary Barber, after an illness of only a half hour's duration. She was the mother of the late Bryant H. Barber, the Polo banker and was 90 years of age, July 4. The funeral arrangements are not made complete but will probably take place Sunday afternoon.

Mr. and Mrs. Ralph Coffey and Mr. and Mrs. Martin Coffey, of Milledgeville, were Polo visitors Saturday evening.

Mr. and Mrs. Roy Long and daughter, Eunice, who have been visiting his brother, Ambrose and other rela-

tives during the past month, expect to leave Saturday for their home at Danbury, Wis., making the trip by auto.

Mr. and Mrs. Perry Beitel and sons Wayne and Donald, of Rochelle, spent Sunday here with Mrs. Beitel's parents, Mr. and Mrs. John Wilson, Sr.

Skin Health Essential to Bodily Health

It is just as necessary to keep the outside of the body protected against germs and infection as it is the inside.

Many diseases are transmitted through the pores of the skin. Many serious infections come from lack of proper skin care.

The best of skin protection is cleanliness. And cleanliness—actual, honest cleanliness—demands use of clean, pure soap. You can't keep the skin clean and in a healthful condition when you clog the pores with impure soap.

Remmo Sterilized Toilet Soap is the purest and best Toilet Soap that can be manufactured. It is made exclusively of the purest and most excellent ingredients of greatest cleansing quality. Then these ingredients are sterilized at 198 degrees Fahrenheit. There can be no impurities in Remmo Sterilized Toilet Soap. It cleanses the skin hygienically. Its soft, creamy lather removes all dirt, all accumulations from the pores of the skin. It leaves the skin—the surface of it down to the very depths of the pores—thoroughly clean, refreshed, invigorated. A state of cleanliness that establishes a degree of resistance against ailments that might arise through improperly cared for skin—and with it that desirable pink-and-white quality of complexion that can be acquired only through proper skin care.

Remmo Sterilized Toilet Soap is not a medicated soap—not a soap for emergency use—but an everyday toilet soap of greatest soap purity.

SEEK CEMETERY FOR DECEASED J. BARLEYCORN

Prohibitionists Meet in National Convention Today

By Associated Press Leased Wire
Lincoln, Neb., July 21.—Calling the thirteenth quadrennial convention of the Prohibition Party to order here this morning, chairman of the national committee, told the delegates they had come together to "select a burial lot for John Barleycorn." The other parties, he said, "out of respect to John's relatives have voted that he shall lie in state for another four years to be viewed by the American people."

"The Democratic platform is silent," the Republican platform is silent," the Prohibition national chairman continued. "Harding owns brewery stock, he is not a prohibitionist at heart. Cox is wet. The future is before us, the campaign is upon us."

"We want to be the wisest thing, the best thing for the prohibition movement and for the country. It was our fervent wish that every political party would this year fall in line with the Constitution of the United States, with the Congress of the United States, with the Supreme Court of the United States, and recognize openly and avowedly the settlement of this question. The other parties have failed. What shall we do?"

Want Movies in Public Schools

Washington, July 20.—A "movie" machine in every public school to aid in the education of the children of the country is the aim of the Visual Education Association, which has opened headquarters here.

Charles F. Hunt, secretary of the association, says Congress will be asked to appropriate funds to co-operate with the states in carrying out the program, the expense being borne equally by the federal and state governments.

While estimating the ultimate cost at \$19,500,000, Mr. Smith anticipated that this sum would be needed by instalments and he announced that the association would ask for an immediate appropriation of \$5,000,000 available for expenditure during the next three years.

The association is incorporated in the state of Indiana its organizers including Charles A. Greathouse, former Indiana state superintendent of public instruction; Dr. J. N. Hurty, Indiana commissioner of health and B. R. Inman, manager of the Indiana Chamber of Commerce.

OHIO.

Mrs. Frank Naughtin passed away at her home west of this city Monday, July 12, after a lingering illness from tuberculosis.

Mrs. Naughtin was the only child of Bernard and Anne Crannell Murtagh, both of whom preceded her in death. She grew to young womanhood in this vicinity, was a graduate of St. Joseph academy and also attended the state normal school at DeKalb. On April 18, 1917, she was united in marriage with Frank Naughtin, of Walnut, and two little sons came to bless their home.

The husband, two little sons and other relatives have the sympathy of a host of friends in the loss of their loved one. Funeral services were held at the church of the Immaculate Conception in this city on Wednesday morning and the remains were laid to rest in St. Mary's cemetery.

POLICE PROBE OLD ROMANCES OF "JEKYLL-HYDE" ARMY OFFICER SLEW HIS PRETTY WAR-BRIDE

CARL WANDERER.

JULIA SCHMITT

RUTH WANDERER.

CHICAGO.—Police are looking into the history of Lieutenant Carl Wanderer, confessed wife-murderer, to find out whether old romances have any bearing on the killing. Wanderer, in his confession, told how he hired an unknown young man to stage a fake robbery at his home. Then he shot and killed both the hired youth and his bride, using two guns and dropping one beside the "robber's" body.

He gave as his reason that he did not wish to be encumbered by a wife and, "worse yet," the expected child. He planned to re-enter the army. At first police believed the story he told—that he surprised the robber who shot Mrs. Wanderer and that he then killed the intruder. When both guns were traced to Wanderer, however, he confessed. Until he went on the wild rampage, Wanderer had been the kindest of husbands.

Just before he slew his wife he took her to a movie. Police have found a young girl, Julia Schmitt, who had gone out with the "Jekyll-Hyde" Wanderer several times, believing him to be single. She says he treated her with utmost courtesy. He received United States and French decorations for distinguished war services.

and Mrs. John Crannell and J. F. Naughtin, of Chicago, Miss Charlotte Sheehan, of Milwaukee, and James Naughtin, of Champaign, were among those from a distance who attended the funeral of Mrs. Frank Naughtin.

South Approach to I. C. Bridge Nearly Collapsed This Week

A party of the south approach to the Illinois Central railroad bridge across Rock River was in danger of sliding into the river the first of the week and traffic was somewhat delayed for a few hours until piling had been driven to support the weak places. Dirt is being excavated for the construction of the new steel bridge and a part of the track was not supported started to give away. The earth sliding into the river. A pile of briars came from Prospect and drove several heavy pilings to reinforce the break before heavy trains were permitted to pass over the track.

NEIGHBORHOOD WAS AMAZED, SHE SAYS

For First Time in Twenty Two Years She Now Enjoys Good Health, Sleeps Like a Child Now

"For the first time in twenty-two years I know what it means to enjoy good health, and I just can't express how happy I feel over my recovery," was the enthusiastic statement made a few days ago by Mrs. Mildred Collins, of 425 South Chambers Street, Galesburg, Ill.

"Before I began taking Tanlac," she continued, "I had suffered for nearly 25 years and had gotten to where I saw little or no pleasure in life. My stomach had become so badly upset that I had to live on the very softest of diet, such as milk and toast, and finally I got so had off I couldn't even get out of the house. In fact I was in bed most of the time. I would get so choked up from the gas on my stomach that I felt like I was smothering and many times I thought I was going to die. My heart would palpitate so fast it alarmed me and there was constant pain in the pit of my stomach. My head would ache and throb until I could hardly stand it and I often got so dizzy I couldn't stand up. My kid-

neys were terribly disordered and bothered me continually, and there was a pain across my back that extended up to my shoulder blades and at times was so severe I couldn't move. My nerves broke down completely under the strain, and if someone even stepped up on the porch unexpectedly it nearly drove me frantic. This is the way I suffered all these years and I had become so discouraged that I had almost lost heart.

"As long as I live I will bless the day I began taking Tanlac, for it was then that a change for the better took place in my condition. The indigestion began to lose its grip and on the fourth day I sat down and ate a hearty meal. From then on I regained my health so fast that not only my husband and myself were surprised but the whole neighborhood was amazed at my recovery. I eat three big meals every day now and I enjoy them, my kidneys were never in better condition in my life and the pain has left my back entirely. My nerves are strong and steady and I no longer suffer with headaches and dizzy spells. I sleep as sound as a child and I am feeling better than I have in twenty-five years."

Tanlac is sold in Dixon by the Public Drug and Book Co., and by the leading druggist in every town.

NOTICE TO CONTRACTORS

Sealed proposals addressed to the Board of Local Improvements and the Council of the City of Dixon, Illinois, and endorsed "Proposals for the furnishing of the labor and materials for and the construction of vitrified tile pipe sewer, with manholes and house connection laterals in Seventh Street, in the City of Dixon, Illinois," as provided for in Local Improvement Ordinance Number 197, Series of 1920, of said City of Dixon, will be received by the Board of Local Improvements and the Council of the City of Dixon, until 8:30 o'clock p. m., July 20, 1920, and will be publicly opened by the Mayor of said City of Dixon, (who is the president of said Board of Local Improvements) at a joint meeting of said Council and Board of Local Improvement to be held in the Council Chamber in the City Hall in said City of Dixon at 8:30 o'clock in the evening on the 20th day of July, A. D. 1920.

Said bids shall be opened by the Mayor in the presence of a majority of the Council and shall remain on file in the Mayor's office and be open to public inspection for at least 48 hours before an award of said contract is made to any competitive bidder. After the expiration of 48 hours, as above stated, said Council and Board of Local Improvements shall meet in joint session and determine the most advantageous bid for the City and publicly declare the same.

The work for which said tenders are invited is for the construction of 417 cubic yards of excavation; 2 manholes of three feet internal diameter with gutter tile inverts, cast iron covers, iron steps and eight inch walls, of brick, in header courses and plastered on the outside; 550 linear feet of No. 1 eight inch sewer pipe (laid with cement mortar joints); 220 linear feet of No. 1 six inch sewer pipe (laid with cement mortar joints), as provided for in Local Improvement Ordinance Number 197, Series of 1920 of the City of Dixon, Illinois.

Each bid for this improvement must be accompanied by a certified check or cash for an amount not less than 10 per cent of the aggregate of such proposals. All certified checks must be drawn on some responsible bank and must be payable to the order of the president of the Board of Local Improvements, in his official capacity. No bids will be considered unless accompanied by such certified check or cash.

OTTO AUTO

1920, of the City of Dixon, Illinois.

Each bid for this improvement must be accompanied by a certified check or cash for an amount not less than 10 per cent of the aggregate of such proposals. All certified checks must be drawn on some responsible bank and must be payable to the order of the president of the Board of Local Improvements, in his official capacity. No bids will be considered unless accompanied by such certified check or cash.

Said cash or certified checks will be held by said Board of Local Improvements until all the bids have been canvassed and the contract has been awarded and signed. The return of such check or cash to the successful bidder being conditioned upon his appearance within fifteen days after having been made to him or them, accompanied by a bond satisfactory to the Board of Local Improvements and the Council of the City of Dixon.

A bond equal to the amount of the bid will be required, conditioned for the fulfillment of the contract in accordance with the ordinance and specifications and the satisfaction of the Board of Local Improvements and the Council of said City of Dixon. All proposals must be made on blanks which will be furnished bidders at the City Clerk's office.

Payment for the work for which said tenders are invited is to be made in cash or bonds, payable when the contract is completed and the work accepted by the Board of Local Improvements and the Council of the City of Dixon, bonds to draw interest at 5 per centum. No bid will be considered unless the party making it shall furnish evidence satisfactory to the Board of Local Improvements and Council of the City of Dixon of his experience and ability in this class of work and that he can control sufficient capital to enable him to successfully prosecute the same in case the contract shall be awarded to him.

Bidders will examine the ordinance, maps, plans, profiles and specifications and also the locality in which said work is to be done and judge for themselves of all the circumstances and surrounding conditions affecting the cost and the nature of the work. Specifications for said work are on file in the Mayor's office and may also be seen at the office of the City Clerk of the City of Dixon from and after this date.

The person to whom the contract for the construction of said improvement is awarded shall, before the commencement of work under such contract, provide ample, suitable and valid insurance policies to provide against and pay all claims for injury to persons or property arising under the laws of the State of Illinois, in the prosecution and construction of said work.

The Council and Board of Local Improvements reserve the right to reject any and all bids. Dated at Dixon, Illinois, this 7th day of July, A. D. 1920.

companied by his or their bondsmen and executing a contract with said Board of Local Improvements for the completion of the work so awarded and giving a bond satisfactory to the Board of Local Improvements and Council of the City of Dixon.

A bond equal to the amount of the bid will be required, conditioned for the fulfillment of the contract in accordance with the ordinance and specifications and the satisfaction of the Board of Local Improvements and the Council of said City of Dixon. All proposals must be made on blanks which will be furnished bidders at the City Clerk's office.

Payment for the work for which said tenders are invited is to be made in cash or bonds, payable when the contract is completed and the work accepted by the Board of Local Improvements and the Council of the City of Dixon, bonds to draw interest at 5 per centum. No bid will be considered unless the party making it shall furnish evidence satisfactory to the Board of Local Improvements and Council of the City of Dixon of his experience and ability in this class of work and that he can control sufficient capital to enable him to successfully prosecute the same in case the contract shall be awarded to him.

Bidders will examine the ordinance, maps, plans, profiles and specifications and also the locality in which said work is to be done and judge for themselves of all the circumstances and surrounding conditions affecting the cost and the nature of the work. Specifications for said work are on file in the Mayor's office and may also be seen at the office of the City Clerk of the City of Dixon from and after this date.

The person to whom the contract for the construction of said improvement is awarded shall, before the commencement of work under such contract, provide ample, suitable and valid insurance policies to provide against and pay all claims for injury to persons or property arising under the laws of the State of Illinois, in the prosecution and construction of said work.

The Council and Board of Local Improvements reserve the right to reject any and all bids. Dated at Dixon, Illinois, this 7th day of July, A. D. 1920.

NOTICE TO CONTRACTORS

Sealed proposals addressed to the Board of Local Improvements and the Council of the City of Dixon, Illinois, and endorsed "Proposals for the furnishing of the labor and materials for and the construction of vitrified tile pipe sewer, with manholes and house connection laterals in Seventh Street, in the City of Dixon, Illinois," as provided for in Local Improvement Ordinance Number 197, Series of 1920, of said City of Dixon, will be received by the Board of Local Improvements and the Council of the City of Dixon, until 8:30 o'clock p. m., July 20, 1920, and will be publicly opened by the Mayor of said City of Dixon, (who is the president of said Board of Local Improvements) at a joint meeting of said Council and Board of Local Improvement to be held in the Council Chamber in the City Hall in said City of Dixon at 8:30 o'clock in the evening on the 20th day of July, 1920.

Said bids shall be opened by the Mayor in the presence of a majority of the Council and shall remain on file in the Mayor's office and be open to public inspection for at least 48 hours before an award of said contract is made to any competitive bidder. After the expiration of 48 hours, as above stated, said Council and Board of Local Improvements shall meet in joint session and determine the most advantageous bid for the City and publicly declare the same.

The work for which said tenders are invited is for the construction of 417 cubic yards of excavation; 2 manholes of three feet internal diameter with gutter tile inverts, cast iron covers, iron steps and eight inch walls, of brick, in header courses and plastered on the outside; 550 linear feet of No. 1 eight inch sewer pipe (laid with cement mortar joints); 220 linear feet of No. 1 six inch sewer pipe (laid with cement mortar joints), as provided for in Local Improvement Ordinance Number 197, Series of 1920 of the City of Dixon, Illinois.

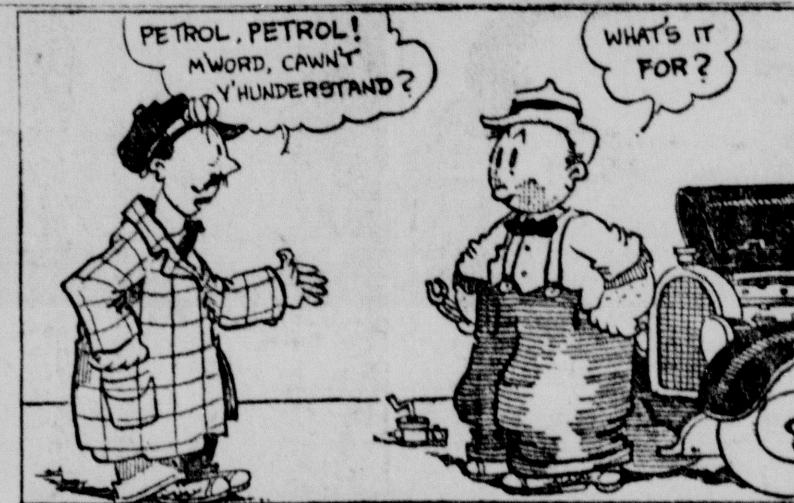

Each bid for this improvement must be accompanied by a certified check or cash for an amount not less than 10 per cent of the aggregate of such proposals. All certified checks must be drawn on some responsible bank and must be payable to the order of the president of the Board of Local Improvements, in his official capacity. No bids will be considered unless accompanied by such certified check or cash.

Said cash or certified checks will be held by said Board of Local Improvements until all the bids have been canvassed and the contract has been awarded and signed. The return of such check or cash to the successful bidder being conditioned upon his appearance within fifteen days after having been made to him or them, accompanied by a bond satisfactory to the Board of Local Improvements and the Council of the City of Dixon.

A bond equal to the amount of the bid will be required, conditioned for the fulfillment of the contract in accordance with the ordinance and specifications and the satisfaction of the Board of Local Improvements and the Council of said City of Dixon. All proposals must be made on blanks which will be furnished bidders at the City Clerk's office.

The person to whom the contract for the construction of said improvement is awarded shall, before the commencement of work under such contract, provide ample, suitable and valid insurance policies to provide against and pay all claims for injury to persons or property arising under the laws of the State of Illinois, in the prosecution and construction of said work.

Guaranteed Purity

Pure milk—not only pure at the source but rigidly safeguarded from contamination through every phase of manufacture—this is the guarantee that goes with every Borden product.

It is a guarantee of which every worker in the dairies and condenseries is eager to uphold and through whose efforts it has been maintained for more than 60 years.

The Borden name in connection with milk products is a synonym for purity and quality.

Retail Prices of Food Still Going Up

Washington, July 20.—Greatest increase in retail food prices throughout the country in the past year was in Springfield, Ill., according to a survey by the bureau of statistics of the department of labor. An advance of two per cent was noted on June 15 over prices of May 15, or an increase of 9 per cent since January 1.

The greatest increase in the past year of 29 per cent was shown in Springfield, Ill., and the lowest, 8 per cent in Charleston.

Price increased in 49 cities under observation and decreased in 12. Increases observed were 4 per cent in Springfield, Ill.; 3 per cent in Chicago and St. Louis.

A decrease of 5 per cent was noted in Houston, Texas. Only two cities of the 39, Jacksonville, and Los Angeles, showed less than 100 per cent increase since 1913. Detroit topped the list with an increase of 139 per cent.

SIAMESE HAVE A SENSE OF HUMOR

London.—Siamese students, says a London educator, define some words as follows:

Liar—A bad adjective for boy.
Kick—A verb of the foot.
Hop—A verb of the frog.
Wig—Hypocrite hair.

THESE THIEVES JUST CAN'T PLEASE.

Dallas, Tex.—Yeggs opened a drug store here and took the safe. But

the money was in the cash register. "I wish they had taken the money and left the safe," wails the proprietor. "It was a good, safe safe."

Equip Your Small Car With Goodyear Tires

Goodyear Tires in the 30 x 3, 30 x 3 1/2 and 31 x 4-inch sizes are manufactured with characteristic Goodyear care to build high relative value into every carcass and tread.

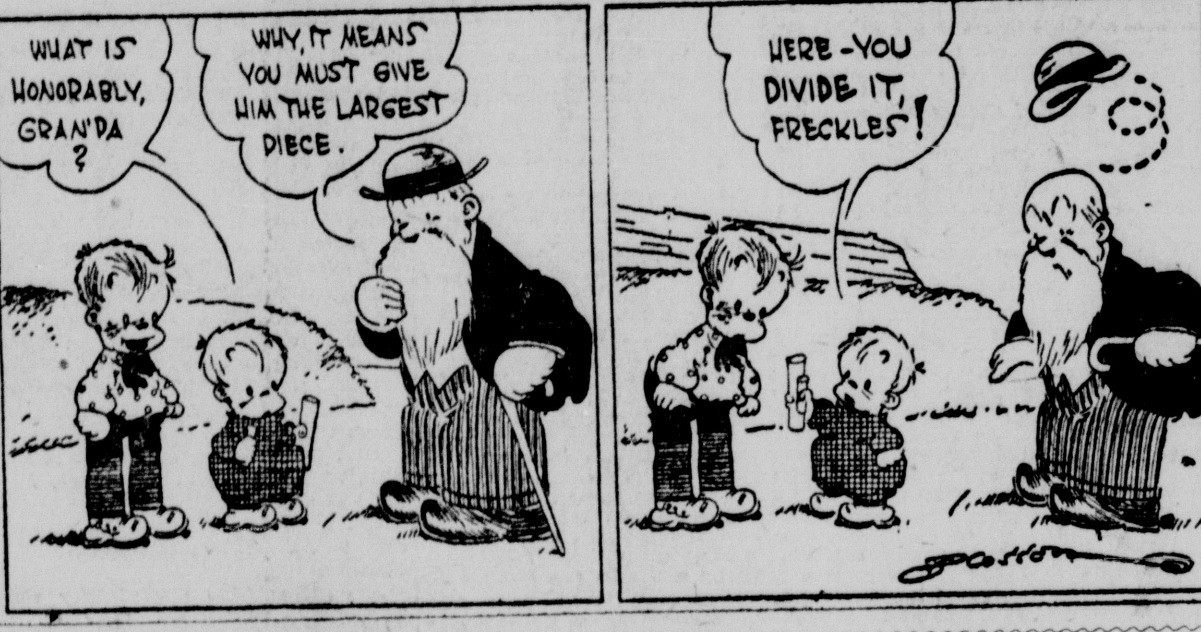

Last year more cars taking these sizes were factory-equipped with Goodyear Tires than with any other kind.

In order to make these tires widely available to users of such cars, we are operating the world's largest tire factory devoted to these sizes.
